

Action D2 – Networking

Networking activities

Such activities will contribute to enhance the transfer of knowledge and experience among the network partners, thus promoting further innovation in the overall project lifecycle and beyond.

Networking with other EU initiatives

- Participation to international initiatives
- Schedule meetings with European initiatives to discuss the benefits of the innovative remediation and monitoring technology

Create and managing the RESPIRE External Stakeholders Group (RESG).

The RESG will be involved in project events and will be important to widely spread RESPIRE innovative results and sustain AfterLife project activities and market introduction.

Action D2 – Networking

European Atlas of Natural Radiation

European Radon Association

Improving Awareness and
Reducing Risk of
Radon Exposure Across Europe

Metrology for Radon Monitoring

Department of Geology

IWEANR 2017 - 2nd International Workshop on the European Atlas of Natural Radiation
Verbania, Italy, 6 – 9 November 2017
